

HEAR & BEYOND

Live Skillfully
with Hearing Loss

SHARI EBERTS
GAEL HANNAN

Hearing loss doesn't come with an operating manual—until now

THE CONVENTIONAL APPROACH to hearing loss treatment is focused on hearing aid technology. What's missing from this hearing care model is the big picture—a real-life illustration of how hearing loss, its emotions, and its barriers affect every corner of your life.

Now, hearing-health advocates, consultants, and speakers Shari Eberts and Gael Hannan offer a new skills-based approach to hearing loss that is centered not on hearing better, but on communicating better.

Informed by the lived experiences of thousands of people living with hearing loss and corroborated by hearing science, technological advances, and modern hearing care principles, *Hear & Beyond* offers a new way forward to greater connection and engagement—whether you're new to hearing loss or have been living with it for a long time.
